LinkedIn: [linkedin.com/in swativagare](https://www.linkedin.com/in/swativagare)

## CAREER OBJECTIVE

Motivated **MERN Stack Developer** with strong fundamentals in **React, Node.js, Express, and MongoDB**. Seeking an entry-level opportunity to apply my skills, learn from real-world projects, and contribute to building scalable and user-friendly web applications.

**Certifications:** MERN Stack developer.

## EDUCATION

B.Sc. Information Technology 2024

CGPA:9.00

Mumbai University

12th (Science) 2021

Marks:79%

Maharashtra State Board

10th 2019

Marks:75%

Maharashtra State Board

## SKILLS

### **Frontend:**

- HTML, CSS, JavaScript (ES6+)
- React.js

### **Backend:**

- Node.js
- Express.js
- Rest APIs

### **Database:**

- MongoDB

## **ACADEMIC PROJECTS**

### **1.Voice Controlled Humanoid Robot**

A **Voice-Controlled Humanoid Robot** is an intelligent robotic system designed to understand and respond to human voice commands. This project works on four basic voice commands: forward, backward, left, and right. The robot listens to the user's voice, processes the command, and moves in the specified direction. This project demonstrates basic voice recognition and robotic movement control. The system included components such as Arduino, a motor driver, a Bluetooth module, mobile application and jumper wires etc.

## **PROJECTS**

### **1. To-Do List Application :**

A responsive To-Do application developed to manage daily tasks efficiently, featuring task creation, editing, deletion, and completion tracking. Implemented clean UI with component-based architecture and effective state management to ensure smooth performance and improved user experience. This project highlights practical frontend development skills and clean coding practices.

### **2. Personal portfolio website:**

A personal portfolio website developed to showcase projects, technical skills, and experience in a clean and responsive layout. Designed with a user-centric approach, the website highlights frontend development capabilities, includes project demonstrations, and provides an easy way for recruiters to connect through a contact section. This project reflects strong UI design sense, responsive design principles, and modern frontend development practices.

### **3. Grocery delivery app:**

A Grocery Delivery App is a digital platform that allows users to order daily grocery items such as fruits, vegetables, dairy products, and household essentials online and get them delivered to their doorstep, providing a convenient, time-saving, and user-friendly shopping experience. Users can browse products by categories, add items to the cart, place orders, choose flexible delivery options, and make secure online payments while tracking their orders in real time. For administrators, the system includes features like product management, order management, and inventory control, making the app efficient and reliable while reducing the need for physical store visits.

## **PERSONAL PROFILE**

Nationality: Indian

Marital Status: Unmarried

Languages: English, Hindi, Marathi

Areas of Interest: Rangoli, Dancing

## **DECLARATION**

I, Swati vagare, hereby declare that the information provided here in is true and correct to the best of my knowledge and belief.
